VISION

With our range of products, we are specifically focusing on the ecological aspects connected to a new lifestyle, where the outdoors symbolize being in touch with nature, where boundaries disappear and change. Our systems, working with renewable energy sources, are a valid answer to the need to preserve the world that we share with all living beings, to respect it and to keep it untouched.

MISSION

The legacy we have been carrying on for over thirty years is a centuries-old tradition, strongly connected to the Earth and its bounty. Our mission is loyal to the spirit of cultivating, ploughing, manuring, watering, and harvesting. Faithful to our model, we cultivate human relationships and coordinate production with harvest seasons – just as it happens in nature. This modus operandi helped us to create a design tailored to evolving markets, and consolidating an organic, consistent set of corporate ethics that creates value and opportunity.

MARQUEE

E L I T E

With Elite, you can compose interesting architectural geometries, which can strongly connote a project. There are square and rectangular versions, both modular with most of the models of the Giulio Barbieri S.r.l. marquee range. The widest side reachable with the central column is 13 meters. Elite is characterized by structural aluminum profiles on the outside, giving a pleasant, harmonious and neat vision of the interior.
