SUMMER  
LEADER

## **VISION**

With our range of products, we are specifically focusing on the ecological aspects connected to a new lifestyle, where the outdoors symbolize being in touch with nature, where boundaries disappear and change. Our systems, working with renewable energy sources, are a valid answer to the need to preserve the world that we share with all living beings, to respect it and to keep it untouched.

## **MISSION**

The legacy we have been carrying on for over thirty years is a centuries-old tradition, strongly connected to the Earth and its bounty. Our mission is loyal to the spirit of cultivating, ploughing, manuring, watering, and harvesting. Faithful to our model, we cultivate human relationships and coordinate production with harvest seasons – just as it happens in nature. This modus operandi helped us to create a design tailored to evolving markets, and consolidating an organic, consistent set of corporate ethics that creates value and opportunity.

SOLUTIONS

MARQUEE

# SILVER

The simplified product that fulfills simple and essential functions. Two versions are available: with rectangular and square layouts, in the maximum dimensions of 400 x 400 cm. For each smaller size, it is possible to realize solutions to the centimeter; the modules can be coupled and juxtaposed and the external aluminum supporting structure creates a harmonious and elegant interior space. The components make the product compatible and modular with other structures of the same model.

EVENT SOLUTIONS MARQUEE

# SUMMER

Summer has an important feature: it can reach considerable dimensions, the most extended version reaching 600x600 cm. This increases the flexibility of the product, which can be adapted to projects involving extensions and larger covers. The square and rectangular modules can be combined and paired, and the external aluminum support structure creates a harmonious and elegant interior space. These components make the product compatible with other structures of the same model.

## **GUARANTEE AND QUALITY**

- The products are CE certified. The booklet with the DOP declaration of performance accompanies the product until its complete installation.
- Fireproof certificates are provided for each type of fabric used.
- The structures are structurally checked and comply with the loads required by the standards in force UNI EN 13782:2015 Temporary structures - Tents - Safety, DM 17 January 2018 Technical construction standards and UNI EN 1999 Eurocode 9 - Design of aluminum structures.
- The aluminum structural elements are guaranteed for five years\*.
- Since 1990, we design and manufacture our collections entirely in Italy in our factory in Poggio Renatico.

\* For more details on the guarantee, please refer to the general conditions of Giulio Barbieri S.r.l. published in the official price list.
