

C A T A L O G

3 F A C I L E

## **VISION**

With our range of products, we are specifically focusing on the ecological aspects connected to a new lifestyle, where the outdoors symbolize being in touch with nature, where boundaries disappear and change. Our systems, working with renewable energy sources, are a valid answer to the need to preserve the world that we share with all living beings, to respect it and to keep it untouched.

## **MISSION**

The legacy we have been carrying on for over thirty years is a centuries-old tradition, strongly connected to the Earth and its bounty. Our mission is loyal to the spirit of cultivating, ploughing, manuring, watering, and harvesting. Faithful to our model, we cultivate human relationships and coordinate production with harvest seasons – just as it happens in nature. This modus operandi helped us to create a design tailored to evolving markets, and consolidating an organic, consistent set of corporate ethics that creates value and opportunity.

## LEAN-TO PATIO VERANDA

3 F A C I L E

3Facile is a lean-to patio veranda with a fixed PVC cover. 3Facile revives the traditional shape of wooden pergolas, adding the aluminum and the PVC tarp's resistance and durability to get a space made to spend pleasant moments during any season. The warm colors and the mat finish, hoven painted with high resistance epoxy powder, improve the product's quality and its resistance, giving the structure a cozy look, in harmony with natural elements. The structure can be complemented with a number of accessories, such as the sliding edging profiles with PVC or glass membranes, decorative drapes, telescopic windshields made of glass.

We blended indoor and outdoor spaces, designing a product that works as an “osmotic” element with the surrounding nature, that could be experienced all year round – a veranda or a modern winter garden. With 3Facile, creating a flexible and versatile space – where the structure itself merges with nature while recovering the intrinsic meaning of collective gathering spaces – becomes possible.

## WARRANTY AND QUALITY

- The products are CE certified. The booklet with the Declaration of Performance (DOP) accompanies the product until its installation is completed.
- Fireproofing certificates are supplied for each type of tarp.
- The structures are structurally tested and comply with the loads required by current legislations, DM 17 January 2018 Technical Standards for Buildings (Norme Tecniche per le Costruzioni) NTC 2018 and UNI EN 1991
- The structural elements made of aluminum are covered by a 5-year guarantee\*
- Since 1990, we design and industrialize our collections completely in Italy, at the Poggio Renatico plants.

\* For further details about the warranty please see the terms and conditions of sale Giulio Barbieri S.r.l. indicated in the official price list.
