

C A T A L O G

V E L A

VISION

With our range of products, we are specifically focusing on the ecological aspects connected to a new lifestyle, where the outdoors symbolize being in touch with nature, where boundaries disappear and change. Our systems, working with renewable energy sources, are a valid answer to the need to preserve the world that we share with all living beings, to respect it and to keep it untouched.

MISSION

The legacy we have been carrying on for over thirty years is a centuries-old tradition, strongly connected to the Earth and its bounty. Our mission is loyal to the spirit of cultivating, ploughing, manuring, watering, and harvesting. Faithful to our model, we cultivate human relationships and coordinate production with harvest seasons – just as it happens in nature. This modus operandi helped us to create a design tailored to evolving markets, and consolidating an organic, consistent set of corporate ethics that creates value and opportunity.

PERGOLA WITH SHADE SAIL

V E L A

Vela is a pergola with a manually-operated roll-up double shading sail that combines the austere shape of a cube with the extremely free and dynamic shape of a sail – the result is a product that perfectly matches any type of architecture, without spoiling the harmony of the spaces. Vela pushes the boundaries, the transition being represented by the sail, and invites to indulge in meditation. The warm colors and the mat finish, hoven painted with high resistance epoxy powder, improve the Onda's resistance in time and make it a cozy-looking product, which sits in harmony with nature and the outdoors.

The structure can be complemented with a number of accessories, such as curtains, telescopic windshields made of glass, and decorative drapes.

The masterplan behind Vela is inspired to the wind and to the art of managing its flow, combining the shading function with the technical membranes. The real challenge is to adapt a sail usually made for the sea winds to buildings, facades that are heterogeneous in style. Vela is a bet we won, with its simple usability – it increases the possibilities of adapting outdoor spaces to the surroundings.

WARRANTY AND QUALITY

- The products are CE certified. The booklet with the Declaration of Performance (DOP) accompanies the product until its installation is completed.
- Fireproofing certificates are supplied for each type of tarp.
- The structures are structurally tested and comply with the loads required by current legislations, DM 17 January 2018 Technical Standards for Buildings (Norme Tecniche per le Costruzioni) NTC 2018 and UNI EN 1991
- The structural elements made of aluminum are covered by a 5-year guarantee*
- Since 1990, we design and industrialize our collections completely in Italy, at the Poggio Renatico plants.

* For further details about the warranty please see the terms and conditions of sale Giulio Barbieri S.r.l. indicated in the official price list.
